Remember, wear eye protection, gloves and wash with technu at the end of your work day. Avoid the hymenoptera.

Click locations where invasive plant were treated

Open a second form if more than one plant species was treated.

I walked the lower trail around the Oakland side all the way to the west beach pulling any garlic mustard I found. I also helped Diane and Ellie tie string between the posts marking the encroachment near the main park. It should be noted that I found a bunch of first year plants near the southwest end of the lake, along the lagoon.
